## HEALTH, SAFETY AND ENVIRONMENT POLICY

1. The Company is committed at all times to protect and promote the health and safety of all people working on our site, and of others affected by our activities and to minimize any harmful impact of our activities on the environment.
2. We recognise that the committed, effective management of health, safety and levels of management will address relevant HSE issues as a normal daily management activity.
3. We will take all reasonably practical steps to minimise health, safety and environmental risks.
4. Our activities will comply with all relevant statutory provisions. Full compliance with UAE law is our minimum requirement, and where local statute remains silent, with statutory guidelines and world " good practice " derived from fully developed industrialised nations.
5. We will manage HSE risks, setting targets and monitoring our performance, so as to progressively reduce risks, accident rates, emissions and effluents and increase our efficiency in use of natural resources and energy. Our goal is zero accidents.
6. We will design facilities and procedures and conduct operations so as to minimise risks to workers, property and the community at large, in accordance with industry good practice.
7. All employees will be provided with the necessary training, equipment information and other resources and assistance, so that they may plan and perform their work in a safe manner.
8. *All employees will be informed of their responsibilities for their safety and the safety of others affected by their work. Managers and supervisors will be held accountable for the safety performance of their subordinates.*
9. We will require contractors to apply the same or similar HSE standards, practices and procedures.
10. We seek to have a work environment where free and open discussion of HSE issues is encouraged with no fear of reprisals. We will establish confidential and impartial procedures to handle complaints, suggestions and incident reports.
11. We will ensure all employees are aware of the company's HSE performance and activities, by openly publishing performance indices and the actions being taken to improve them.
12. This policy statement will be issued to employees, displayed on notice boards and other prominent places, and attached to work service orders and other contract documentation.
13. The implementation of this policy will be via a documented HSE management system. A member of the board will be nominated to oversee this, and to ensure that the necessary financial and other resources are available.
